**Subject:** UIC permit No. 2000002, Elk Hills Power

Hi Michelle,

I just received the Central Valley Water Board's copy of your Authorization to Inject letter for Well 18G-3A (dated 7 March 2014). I'm looking for a home for the correspondence in our office – or at least the proper database record to update. Can you provide a physical location for the well/facility? We don't plan to take any action. But should we receive a complaint or some other sort of contact, it would be nice to know sort of what's going on and who we might contact.

We have a record in our database for a power station under the name of Elk Hills Power, LLC, but we don't have them under a permit so the only location info we have is Tupman, CA. I'm wondering whether to tie this USEPA permit to that facility or if we actually have nothing in our database that pertains to this injection well.
